

## 2010 Publication Schedule

| Title | Japanese Journal of Applied Physics(JJAP)   | Applied Physics Express(APEX) |
|-------|---|-------------------------------|
| Vol.  | Vol.49, 12 regular issues + 12 special issues   | Vol.3, 12 issues              |
| Date  | Printed issues are published on 25 th of every month. JJAP and APEX are enclosed in the same parcel |                               |
| Jan.  | No.1, Issue 1   | No.1                          |
|       | No.1, Issue 2 (Molecular Electronics and Bioelectronics)  |                               |
| Feb.  | No.2, Issue 1   | No.2                          |
|       | No.2, Issue 2 (Carbon Nanotube Nano-Electronics)  |                               |
| Mar.  | No.3, Issue 1   | No.3                          |
|       | No.3, Issue 2 (Active-Matrix Flatpanel Displays and Devices)  |                               |
| Apr.  | No.4, Issue 1   | No.4                          |
|       | No.4, Issue 2 (Solid State Devices and Materials)   |                               |
| May   | No.5, Issue 1   | No.5                          |
|       | No.5, Issue 2 (Printed Electronics)   |                               |
|       | No.5, Issue 3 (Advanced Metallization for ULSI Applications)  |                               |
| Jun.  | No.6, Issue 1   | No.6                          |
|       | No.6, Issue 2 (Microprocesses and Nanotechnology)   |                               |
| Jul.  | No.7, Issue 1   | No.7                          |
|       | No.7, Issue 2 (Ultrasonic Electronics)  |                               |
| Aug.  | No.8, Issue 1   | No.8                          |
|       | No.8, Issue 2 (Recent Advances in Dry Process and Related Technologies)                             |                               |
|       | No.8, Issue 3 (Optical Memory)  |                               |
|       | No.8, Issue 4 (Scanning Probe Microscopy)   |                               |
| Sep.  | No.9, Issue 1   | No.9                          |
|       | No.9, Issue 2 (Ferroelectric Materials and Their Applications)                                      |                               |
| Oct.  | No.10   | No.10                         |
| Nov.  | No.11   | No.11                         |
| Dec.  | No.12   | No.12                         |
